Send Fax

Working from home, but no fax machine on hand?

Send Fax utilizes a digital cloud fax service, so you don't need to down tools, just to find one.

Emma needs to send an order form overseas, but the supplier requires this to be faxed and not emailed.

She uses the Xerox® Print and Scan Experience App to capture and route the file to Workflow Central, then use the Send Fax workflow to get it where it needs to go.

Send Fax

Contract signed, just need to get back to the office to fax it for processing?

Send Fax is accessible from anywhere – no need for wasted journeys back to the office.

Leroy just closed the deal and wants to get it in for the month-end's numbers but the office is hours away!

So he just uses his phone to capture the signed contract, uploads it to Workflow Central, and uses Send Fax to get it to the accounts team, just in time.

Trevor still needs to fax client letters to the legal team. No other processes require fax, and the analogue fax line is being removed. He needs a solution without the expense of a fully-enabled, cloud-fax solution.

Trevor's organization already subscribes to Workflow Central, which means he now has access to Send Fax through the MFP ConnectKey App.
